

## **Bio for Paul Karpinecz – nominee for Parliamentarian**

**Hi -I'm Paul George Karpinecz**

**I go by Paul George because my last name gets butchered up everytime. I tell people that the c in Karpinecz is silent and that's the only thing silent about me.**

**I started dancing in 2009. At that time I was living outside of Macon, Georgia, and was rehabilitating from a few back surgeries. I quickly realized that dancing was a great way to build strength in my legs and lower back. It was also a great way to improve balance.**

**While in the Macon area I belonged to 2 dance organizations: USA dance and the local Moose Lodge.**

**I moved to Arkansas in November 2020 to be close to family. I attended my first Bop Club dance that December. It was the annual Christmas party and it was great. Everyone was so friendly.**

**I have met so many wonderful people in the Bop Club. Many of them helped me find other great venues to dance in the Hot Springs area.**

**The Bop Club is like a big family. You feel welcome to attend a dance even without ever having danced before.**

**I look forward to helping this organization promote and support dance anyway I can.**
